Bona Resilient Solution: Renewing Worn Floors

Struggling with old, worn, and cracked linoleum, PVC, vinyl, rubber or LVT floors? Bona Resilient Solution is an innovative and highly effective system that renews and extends the life of resilient floors. This high-quality, sustainable programme allows you to not just maintain a floor's freshness, but also to totally transform its look, without replacing it. Even in heavy-traffic areas, floors can be sealed for extra durability and long-term protection.

DESIGN CUSTOMIZATION

BONA RESILIENT SOLUTION

An innovative and highly effective solution that transforms and extends the life of resilient floors. This high-quality, sustainable programme allows you to not just maintain a floor's freshness, but also to totally transform its look, without replacing it. Even in heavy traffic areas, surfaces are sealed for

extra durability and long-term protection. All achieved in 50% less downtime than replacing a resilient floor. And now floor owners can rest assured knowing that the Bona Resilient Solution provides a solid warranty that guarantees it against utmost wear and tear.

TIME AND MONEY SAVINGS

Replacing a floor involves ripping up the old floor, sanding and leveling the subfloor, plus installation of a new floor, which all together is very time consuming. The Bona Resilient Solution can be performed in as little as a few hours which means no need to close the commercial space resulting in convenience and better profitability.

IMPROVED HYGIENE FOR HEALTHIER SURFACES

Bona's unique process along with our coatings creates a monolithic surface that seals against microorganisms thus resulting in a floor with the highest level of hygiene standards as mandated by The Technical Rules of Biological Agents (TRBA).

UNSURPASSED DURABILITY

Heavy traffic is a given in commercial settings and the Bona Resilient Solution does not disappoint. Compared to the industry average, Bona Pure and Bona Pure HD stand out in terms of both wear and chemical resistance.

CHEMICAL RESISTANCE (DISINFECTANTS)

WEAR RESISTANCE

SUSTAINABILITY FOR A BETTER WORLD

In a study conducted by the IVL Swedish Environmental Research Institute, they found that renewing with the Bona Resilient Solution rather than replacing a resilient floor results in 90% savings in both energy and reduced carbon footprint.

ENDLESS DESIGN POSSIBILITIES

The Bona Resilient Solution offers numerous design options from changing the colour and design of a floor, to adding decals, graphics and logos. The possibilities are endless.

Bona Pure HD

Hard-elastic and hardwearing PUR-coating for renewal of resilient floor coverings on base of PVC, rubber or linoleum. Particularly suitable for thin, hard-elastic mats in locations exposed to high wear. Excellent resistance to scratches and scuffs. Reduces porosity thus helping to simplify routine maintenance and keeping good floor hygiene. Waterborne, clear, non-yellowing formula.

Key Benefits:

- Extreme wear resistance
- Allows full traffic after 12h
- Clear, non-yellowing formula
- Long-lasting protection

Technical Data:

Category: Waterborne 2-comp
Drying time: 2-3 h between coats
Application tools: Bona Roller (11 mm)
Coverage: 8-10 m²/L and application

Matt	ES207920001	5 L	3	36
Hardener	ES205045011	0.45 L	3	

Bona Pure

It serves as a long-term surface protection for heavily trafficked industrial and commercial areas, restoring appearance and simplifying routine maintenance. Bona Pure consists of a waterborne, clear, non-yellowing formula.

Key Benefits:

- Superb resistance to disinfectants
- Safe and easy application
- Brilliant levelling properties

Technical Data:

Category: Waterborne 2-comp
Drying time: 2-4 h between coats
Application tools: Bona Roller (11 mm)
Coverage: 8-10 m²/L and application

Hardener	ES205045001	0.45 L	3	

Bona LinoPrime

Quick drying PUR-based primer for pore filling of deep cleaned and sanded linoleum floors. Improves levelling and smoothness of the following coat, which typically can be applied already after 1 hour.

Key Benefits:

- Fills pores and reduces absorbency
- Ultra-quick drying
- Essential for linoleum

Technical Data:

Category: Waterborne 2-comp
Drying time: 1-2 h between coats
Application tools: Bona Roller (5 or 11 mm)
Coverage: 20-25 m²/L and application

	EB400620001	5 L	3	36
Hardener	EH390002001	0.2 L	3	

PU Filler

Two-part polyurethane filler and adhesive. Developed for quick and durable repair of resilient floorings such as PVC/LVT, Rubber and Linoleum, with great adhesion to many materials. Can also be used to glue down smaller pieces of mat. Resistant to high impact, elevated temperature, moisture, and many solvents and chemicals.

Key Benefits:

- Super-quick hardening
- Excellent adhesion properties
- High durability
- Virtually odourless

Technical Data:

Colour: Light Grey
Open time: 3,5 min
Drying time: 30 min (20°C/60% R.H.)

Bona SuperSport Pure HD

Bona SuperSport Pure HD is a hard-elastic and hardwearing PUR coating for the treatment of resilient floor coverings in sport halls.

Key Benefits:

- Tough PUR protection for resilient sport floors
- Rapid drying for minimal downtime. Back on the floor in 12 hours*
- Optimal application and levelling properties
- Compliant to EN 14904:2006 (Indoor Sport Surfaces)

Technical Data:

Category: Waterborne 2-comp

Drying time: 2-4 h between coats

Bona SuperSport Line Paint

Bona SuperSport Line Paint is a specialized line and court marking paint for use on finished resilient sport floors. Can be used to paint line markings but also complete court borders and zones. Available in ten mixable vibrant colours to achieve an endless array of shades.

Key Benefits:

- Quick drying
- Requires no abrasion before overcoating
- Superb opacity (hiding ability)

Technical Data:

Base: Polyurethane

Category: Waterborne 2-comp

Drying time: 1-2 between coats

Application: Fine brush or short-haired roller

Coverage: 6-10 m²/lit or 120-200 m of line-marking

Resilient ESD System

Bona Pure ESD Clear

Bona Pure ESD Clear is a durable, highly transparent top coat able to dissipate static electricity and transport it to ground. It is used as a standalone product for renovation of existing conductive floors.

Key Benefits:

- Durable PUR protection for resilient floors
- Fast curing in only 12 hours for minimal downtime.
- Restores the conductivity of ESD floors
- Meets EN 61340-5-1:2001 standard

Technical Data:

Category: Waterborne 2-comp
Drying time: 1-3 h between coats
Application tools: Bona Roller (11 mm)
Coverage: 15-20 m²/L and application

Matt	ES251620001	5 L	3	36
Hardener	ES205045001	0.45 L	3	

Bona Pure ESD Vibrant

Used in conjunction with Bona Pure Colour ESD base paint, Bona Pure Vibrant is a durable top coat able to dissipate static electricity and transport it to ground. It has a high resistance to chemicals and common disinfectants.

Key Benefits:

- Durable PUR protection for resilient floors
- Fast curing in only 12 hours for minimal downtime.
- Restores the conductivity of ESD floors
- Meets EN 61340-5-1:2001 standard

Technical Data:

Category: Waterborne 2-comp
Drying time: 1-3 h between coats
Application tools: Bona Roller (11 mm)
Coverage: 15-20 m²/L and application

Hardener	ES205045011	0,45 L	3	

Bona Pure Colour ESD

Bona Pure Colour ESD is a waterborne base paint available in three versatile colours. It is heavily pigmented for exceptional coverage and is quick drying for minimal downtime. When used for renovating floors it improves the conductive properties and restore a high level of electrostatic safety.

Key Benefits:

- Heavily pigmented for exceptional coverage
- Quick-drying for minimal downtime
- Restores the conductivity of ESD floors
- Meets EN 61340-5-1:2001 standard

Technical Data:

Category: Waterborne 2-comp
Drying time: 1-3 h between coats
Application tools: Bona Polyester Roller
Coverage: 10-12 m²/L and application

Effect

Bona FlexiSand

A powerful and flexible machine that can be equipped with different drive plates for a wide variety of floor preparation jobs. Its robust construction ensures stable operation, even under heavy load. Bona FlexiSand is compatible with the Bona PowerDrive, a unique drive plate that allows powerful, direction-free sanding. Available with a 1.5 and 1.9 kW motor.

Key Benefits:

- Powerful single-speed motor
- Foldable handle reduces space during transportation
- Large wheels for easy transportation
- Bona PowerDrive ready

Technical Data:

Abrasive disc speed: 147 rpm

Bona PowerDrive

(Internal Spur Gear not included. See below.)

The innovative Bona PowerDrive, to be used exclusively with the Bona FlexiSand 1.9, sets a new standard in sanding. Using a direction-free sanding technique, the drive combines excellent performance with easy operation. Four rotating discs sand closely to the walls reducing the need for edge sanding. The geared plate and revolving discs also deliver increased power for excellent performance in floor sanding.

Key Benefits:

- For powerful rotary sanding
- Reduces the need for edge sanding. Only leaves a 3 cm strip against the wall.
- Delivers a fantastically fine and smooth sanding result

Technical Data:

Compatible with: Bona FlexiSand 1.5

No. of discs: 4

Disc diam.: 150 mm

Weight: 6.7 kg

Dimensions: 410 mm / 410 mm / 93 mm

Bona PowerDrive Connect

Using a unique direction-free sanding and brushing technique, Bona PowerDrive Connect combines excellent performance with easy operation. Mounted on the Bona FlexiSand, it can remove thick layers of lacquer, replacing the need for conventional belt sanding. Its click-on mount enables you to switch between disc and brush within a minute. The drive plate is easy to manoeuvre in small, confined spaces.

Key Benefits:

- Flexible—one drive plate for both sanding and brushing jobs.
- Reduces need for edge sanding. Only leaves a 3 cm strip against the wall.
- Delivers a fantastically fine and smooth sanding result

Technical Data:

Compatible with: Bona FlexiSand 1.9

SANDING | ABRASIVES

Abrasives	Dimension	Grit	Article Number	Packaging	Pcs/transport package
-----------	-----------	------	----------------	-----------	-----------------------

Bona Diamond Abrasive Disc

Made using the hardest sanding agents in the world, Bona Diamond Abrasives are unique, delivering unparalleled sanding efficiency, durability and surface smoothness. Because the diamond grits are hard but not sharp, the result after fine sanding is a smooth, virtually scratch-free surface. Bona Diamond Abrasives last up to 15 times longer than competing screen or multihole sanding discs and deliver consistent performance, even after 100 m² of sanding. And thanks to its unmatched hardness, each disc maintains its sanding performance throughout its lifetime.

Key Benefits:

- Longer lasting
- Perfect evenness
- Better surface
- Safe recoating

Bona PowerScrubber 2.0

The Bona PowerScrubber is a versatile and powerful scrubbing machine for cleaning of most indoor floor surfaces. Bona PowerScrubber 2.0 enables the most effective deep-down cleaning, combined with unrivaled versatility and ease. Counter-rotating roller brushes provide deep, effective cleaning while the powerful, yet compact design of Bona PowerScrubber 2.0 delivers even more performance than most auto scrubbers, as well as the benefits of ergonomic operation, set-up and transportation.

Key Benefits:

- Effective deep clean
- Wide range of surfaces
- Ergonomic design and operation
- Easy to fill, assemble and transport

Technical Data:

Motor rating: Max 2700 W, Avg. 1900 W

Power supply: 230 V / 50 Hz

Machine weight: 34.5 kg

Resilient – Maintenance

Article Number

Packaging

Pcs/transport package

Package/pallet

Bona PowerRemove R

Aggressive cleaning agent developed for stripping polish, dirt and old cleaning residue from resilient floor coverings such as PVC, Linoleum, LVT, or Elastomer. Quick and efficient.

Key Benefits:

- For quick removal of old maintenance coatings and contaminants
- Very high degree of efficiency
- Reduced pH prevents alkaline staining

Technical Data:

pH-value: approx. 9 (conc.)
Dilution: 1:1 – 1:5

	EM703020001	5 L	3	44
--	-------------	-----	---	----

Bona Clean R50

Bona Clean R50 is particularly suited for the routine cleaning of resilient flooring treated with products from the Bona Resilient System. It may be used for daily cleaning, as well as to remove severe soiling. Clean R50 is also suitable for use in automatic cleaning systems.

Key Benefits:

- Gentle, yet effective, even at low dosage
- Highly concentrated
- Low foaming

Technical Data:

pH-value: approx. 9 (conc.)
Dilution (cleaning):
 Normal: 50 ml to 10 litres water (1:200)
 Intensive: 250 ml to 10 litres water (1:40)

	EM701013001	1 L	10	50
	EM701020001	5 L	3	44

Bona Clean R60

Bona Clean R60 is a mild, water-soluble cleaner for the routine cleaning of resilient floors. It has dual-action properties, both cleaning and leaving a thin, protective film in one go. Clean R60 can give a subtle increase in gloss, and is compatible with the Bona Pure coating system.

Key Benefits:

- Cleaning and Maintenance in ONE
- Leaves a resoluble protective film
- Low foaming

Technical Data:

pH-value: approx. 9.5 (conc.)
Dilution: 50 ml to 10 litres water (1:200)
 or 1 L to 10 litres water (1:10) cold water

	EP550013001	1 L	10	50
	EP550020001	5 L	3	44

Bona Shield R

Bona Shield R was developed specifically for surfaces treated with a Bona Pure coating. However, it can also be used on other resilient surfaces, such as linoleum and PVC.

Key Benefits:

- High durability
- Quick drying
- Comfortable friction

Technical Data:

Dilution: Do not dilute
Drying time: 1-2 hours at 20%/60% R.H.

FLOOR CARE

Sport – Maintenance

Bona SuperSport Cleaner

Concentrated slightly alkaline detergent specifically designed for frequent cleaning of indoor sports surfaces. Bona SuperSport Cleaner is gentle on the surface yet will effectively remove grease and grime, leaving no slippery or greasy film. Low foaming formula, suitable for autoscrubber as well as manual application.

Key Benefits:

- Safe on resilient floors
- Low emission
- Leaves no slippery residue

Technical Data:

Dilution: 1:100 for general use
